

# PROJECT ARGUS

protecting against terrorist attack

Project ARGUS is a National Counter Terrorism Security Office (NaCTSO) initiative, exploring ways to aid you in preventing, handling and recovering from a terrorist attack. It achieves this by taking businesses through a simulated terrorist attack.

This simulation provides you with a unique opportunity to both learn from and contribute to valuable lessons helping to protect you, your business and your community, whether you are a national chain or a small business.

NaCTSO has developed a series of Project Argus sessions that are adapted to suit different sectors: Retailers; Bars and Restaurants; Hotels and “Argus Pro”, which is for architects, planners and engineers.

A series of questions and challenges are put to you. You will work in small syndicate groups with other local business representatives.
